
Cheating & Plagiarism

In Australian education, cheating and plagiarism are considered to be the same as theft. When you are using sources such as a book or website, you must cite the source in your work. Copying another student's work is not acceptable under any circumstances. The difference is that the student's work has not been published and cannot be checked by the trainer. Students submitting the same work will be penalised by having those submissions automatically fail. Students must work independently and only in groups as required by the Assessment. Instructions for group work will be provided by your trainer and can be found in the description of your Assessment task. George Brown College has provided Turnitin Software to its students so that they can check their assessments for Plagiarism prior to the submission.
